BKK Silent Chaser Prisma Darting LRF Jighead - Precision and performance for the discerning angler

The **BKK Silent Chaser Prisma Darting LRF jig heads** is the perfect choice for anglers looking for maximum precision and performance when hunting predatory fish. Developed for demanding angling in fresh and salt water, this jig head impresses with its outstanding properties and versatility.

Features of the BKK Silent Chaser Prisma Darting LRF jig heads

- **Aggressive darting action:** The Prisma Darting LRF offers an aggressive darting action that has been specially developed for effective fishing in weak currents. This action makes it ideal for targeting zander, perch and other predatory fish.
- **Versatile:** Although the jig head was primarily developed for fishing near the coast in a SW direction, it is also suitable for light fishing for perch, zander, trout, chub and small carp.
- **High-quality materials:** The jig head is equipped with an extremely sharp hook point, which ensures excellent penetrating power. The Superslide coating ensures increased sharpness and smooth penetration when biting.
- **Secure hold for softbaits:** Thanks to the integrated bait holder, the BKK Silent Chaser Prisma Darting LRF jig head offers a secure hold for softbaits so that they remain securely hooked even with aggressive bites.
- **Diverse swim patterns:** The Micro Jighead series includes several models with different head shapes, including the Prisma Darting LRF, which enable different swim patterns depending on requirements and fishing technique.

Ideal application possibilities

- **Micro jigging:** Perfect for fishing with micro jigs for small to medium-sized fish.
- **Soft lures:** Ideal for use with soft baits to effectively outwit predatory fish.

The **BKK Silent Chaser Prisma Darting LRF jig head** is more than just a simple fishing accessory - it is an unrivalled fishing tackle. With its combination of precision, sharpness and versatility, it sets new standards in modern predator fishing.
