Jenzi surf leader Dega Surf Pro 4 - precision and efficiency for passionate sea anglers

High-quality surf system

The **Jenzi Dega Surf Pro 4 surf rig** stands for quality and professionalism. Each leader is hand-tied and uses only high-quality components. This leader is not just a piece of equipment, but a reliable partner for unforgettable fishing experiences at sea.

Optimised choice of material

The leader is characterised by its transparent-grey or clear materials, which are almost invisible under water. This feature is particularly effective when fishing for flatfish and other cautious sea creatures.

Specified diameters for maximum performance

The main line of the leader has a diameter of 0.60 mm, which provides excellent casting distance and strength. The 0.40mm diameter mouth line provides a subtle and natural bait presentation.

Ideal hook size for versatile use

With size #1 hooks, the Jenzi surf leader can be used universally and is ideal for fishing with natural baits for a variety of sea fish.

From anglers for anglers

Developed from the practical experience of professional anglers, the Jenzi surf system guarantees successful and enjoyable hours at sea. It's more than just a tool - it's part of your fishing experience.
