

# NRS Co-Pilot Knife Sheath Replacement

NRS

Product number: NRS-CPMES

Easily transfer your trusty Co-Pilot Knife between PFDs with the Co-Pilot Sheath Replacement.

9,95 €\* 9,95 €

## Safe protection for your NRS Co-Pilot knife: The NRS Co-Pilot knife replacement sheath

Do you tend to lose your equipment? Stay in control by always keeping a spare sheath on hand in case you accidentally leave the original sheath behind at lunch.

The low-profile, quick-opening Thumbs Up Sheath™ utilises a living hinge system to securely stow your NRS Co-Pilot knife while allowing easy access with just a flick of the thumb. The low-profile design with clip makes for easy and tangle-free carry, while providing the option to securely attach the sheath to a PFD lanyard. Made from high quality glass fibre reinforced polypropylene, it is tough enough to withstand the challenges of different seasons.

### Spezifikationen:

- Sheath material: Glass fibre reinforced polypropylene with rubber contact points
- Overall length: 9,5 cm
- Features: Living hinge for ambidextrous, one-handed operation

Keep your knife safe and protected no matter where your adventures take you with the NRS Co-Pilot Knife Replacement Sheath.
