VMC Worm Hook Long 7054 Red - The perfect hook for large salmon trout

The VMC worm hook long 7054 in red is specially designed for fishing with large worms such as red worms and offers excellent performance when hunting large salmon trout. Thanks to the robust construction made of hi-carbon steel, this single hook is extremely resistant and durable. Two barbs on the shank ensure that the bait stays securely in place, while the sharp barb on the hook itself ensures a secure hold in the fish's mouth.

Features:

- **Robust construction:** Made from hi-carbon steel, which is known for its high strength and durability.
- **Secure bait fixation:** Two barbs on the shank hold large worms, such as redworms, firmly and securely in place.
- **Effective hook sizes:** Available in #6, #4, #2, #1 and #1/0 sizes to meet the needs of different fishing conditions.
- **Red hook colour:** The eye-catching red colour attracts fish and makes the trout hook particularly effective.
- **Packaging unit:** 10 pieces per pack.

This hook is the first choice for anglers who prioritise quality and reliability when it comes to catching large salmon trout.
