NRS Castaway Half Finger Gloves - Perfect protection and grip for warm days

The **NRS Castaway Half Finger Gloves** offer you ultra-light sun protection and improved grip - even when there's no fish on the line. The open finger design allows for maximum dexterity when tying knots, taking photos or holding oars tighter on warm days.

Features of the NRS Castaway half-finger gloves

- Breathable rashguard material that wicks away moisture and offers UPF 50+ protection
- Amara synthetic leather patches on thumbs, which provide additional protection to the first two fingers and palm and protect blister-sensitive areas and prevent abrasion
- Silicone accents on the palm for improved grip and control
- Open finger design for maximum dexterity when tying knots, taking photos and using touchscreens
- Connecting buckles on the wrists to keep the kayak glove together

Material and construction

The NRS Castaway gloves are made from 15% recycled spandex, which makes them very comfortable to wear. The palms are finished with Amara synthetic leather and silicone accents for optimum protection and grip. These **unisex gloves** are perfectly designed for sun protection and blister protection and offer a three-quarter finger design.

Areas of application and advantages

These **NRS paddling** gloves are ideal for various activities such as kayaking, paddling, stand-up paddling (**SUP**) and sailing. They not only offer effective sun protection, but also protection against blisters and improved control thanks to the non-slip silicone accents. As **NRS kayak gloves** and **NRS paddle gloves** they are ideal for water sports. The **NRS SUP gloves** and **NRS sailing gloves** offer maximum comfort and functionality.

With the **NRS Castaway gloves** you'll be well equipped whether you're fishing, photographing or simply enjoying your time on the water. These **Castaway gloves** are also perfect as **fishing gloves**.
