Matrix Alloy Open Method Feeder

The latest open method feeders from Matrix are real catching machines and are an evolution of the original Evolution open method feeders. With their main weight in the front section, they are perfect for fishing long distances, while the smaller size is ideal for winter fishing with minimal amounts of feed.

Features:

- Available in 6 sizes: Small (15g & 25g), Medium (30g & 40g), Large (30g & 45g)
- Includes the new Feeder Quick Beads for improved handling
- With the innovative interchangeable system for ultimate versatility
- Made from injection moulded alloy for optimum weight distribution
- Designed for effortless handling of the feeder
- Weight-forward design increases casting accuracy
- Raised front protects the liner from damage on impact

Discover a pioneering solution to your angling experience with the Matrix Alloy Open Method Feeder. With its outstanding construction and versatility, it will become an essential companion for any angler who values performance and efficiency.
