Starbaits Grab and Go Global Carp Boilies - The perfect choice for successful carp anglers

The **Starbaits Grab and Go Global Carp Boilies** are the ideal solution for anglers who want to achieve the best success in every situation. These **Starbaits Boilies** are made from high-quality ingredients and additives that are known for their attractiveness and good digestibility. As a result, they are quickly accepted by carp as a tasty food source and make fishing much easier.

Features of the Starbaits Grab and Go Global Carp Boilies:

- High-quality ingredients and additives for maximum attractiveness
- Good digestibility and selected ingredients for a tasty food source
- Ideal for long-term feeding campaigns in warm and cold conditions
- Attractors create a large feeding area and attract carp
- Perfect in combination with matching dips/glugs as a single hookbait

The **G&G Global Boilies** are designed to be used in all conditions and at any time of year. They are enriched with food-simulating attractors that stimulate the carp's feeding activity and thus increase the chances of catching fish. Thanks to the good digestibility and high-quality ingredients, carp quickly become accustomed to this carp bait and are happy to eat it. This makes the fish easier to catch and increases your chances of success.

A large feeding area with these **Boilies** provides a pleasant, not too strong level of attractors, which makes

the fish curious and attracts them. If you use the **G&G Global Boilies** with a suitable dip or plug, they are also excellently suited as a single hookbait and therefore offer a wide range of possible uses.

The composition of the Starbaits Grab and Go Global carp boilies includes maize, wheat, water, wheat germ, wheat bran, pea flour, egg albumin and Tutti Frutti flavouring.

High-quality ingredients for optimum results

Starbaits boilies consist of carefully selected ingredients that are crucial for the health and well-being of the fish:

- **Crude proteins:** Important for building and repairing fish body tissue.
- **Crude fats:** Provide energy and are essential for the functioning of the immune system.
- **Crude ash:** Contains important minerals that are essential for the fish's metabolism.
- **Crude fibre:** Promotes digestion, optimises feed efficiency and supports weight control in livestock.

With the **Starbaits Grab and Go Global Carp Boilies** you are well equipped to maximise your fishing success. These **Carp Boilies** are the perfect choice for any keen carp angler who prioritises quality and efficiency.
