## Mondial-F Groundbait: Innovative groundbait for successful fishing trips

Nullens groundbait is a special type of fishing bait named after the Belgian world fishing champion, Marcel Van Den Eynde. He developed this bait to effectively attract and catch fish. It is a mixture of different ingredients that are specially formulated to attract fish through scent and flavour.

### Versatile in use:

**Caramel:** A rich, heavy and sticky bait for fishing for large bream in ponds, lakes and rivers with low currents. The bait is yellow-beige in colour and has a caramel flavour that is very attractive to bream. The attractant has a medium structure and is easy to mix. There are larger particles in the attractant so that it slowly breaks apart at the bottom. The bait is lightly salted and also contains red particles that increase its attractiveness.

**Gingerbread:** This bait is enriched with gingerbread and is a real magnet for bream and other large fish. The dark beige food is very rich, sticks very well and is perfect for deeper lakes and rivers. The larger particles ensure that the food slowly breaks up at the bottom. In addition to the strong gingerbread flavour, red particles provide visual appeal.

**Marzipan:** A rich, heavy and sticky bait for selecting larger bream in lakes and rivers with low currents. The red ingredients attract extra interest from the fish in this otherwise yellow-beige coloured bait. Simply moisten in 2 steps. The coarser particles select the better fish. Strong almond flavour and lightly salted: this bait is guaranteed to attract bream!

## Here are the main features of Nullens Groundbait:

- **Attractive blend:** attractant Mondial-F combines a variety of particles and flavors to create an irresistible blend that magically attracts fish.
- **Effective attraction:** As soon as it comes into contact with water, the food dissolves quickly and releases enticing scents that attract fish in large numbers to your fishing spot.
- **Versatile application:** This innovative bait mix is extremely flexible to use and is suitable for a variety of fish species as well as different fishing methods.

## Composition:

Mondial-F's groundbait consists of a balanced blend of high-quality ingredients such as cookie, corn, breadcrumbs and potato flakes, which are specially formulated to achieve maximum attraction.

## Customisable recipes for targeted fishing

- **Bream feed:** Add 15% Coprah Molasses to the base feed to create sticky, heavy feed balls that effectively attract bream.
- **Carp feed:** Add 5% [Mondial-F Touche](#) to attract large carp and other big fish.
- **Roach feed:** For large roach, the addition of 10% [roasted hemp](#) is recommended.
- **Tench feed:** For tench, you should slowly moisten and mix the bait, then add 15% [chocolate biscuit](#).
- **Crucian carp feed:** For crucian carp, it is best to moisten and mix the feed slowly and then add 15% gingerbread flour.

## High-quality ingredients for optimum results

Mondial-F groundbait consists of carefully selected ingredients that are crucial for the health and well-being of the fish:

- **Crude proteins:** Important for building and repairing fish body tissue.
- **Crude fats:** Provide energy and are essential for the functioning of the immune system.
- **Crude ash:** Contains important minerals that are essential for the fish's metabolism.
- **Crude cellulose:** Structural component in plant cells that provides firmness.

With Mondial-F lures, you are ready to take your fishing experience to a new level and make your next fishing trip an unforgettable success. Discover the secret weapon of the pros now and let its irresistible attraction convince you!
