Sensas Additive Aromix liquid bait flavour - The perfect attractant for your fishing groundbait

Sensas Additive Aromix Liquid Flavouring 500ml is a highly concentrated, sweet attractant for flavouring your fishing food. Simply dissolve in water (10-25%) and then moisten the food with it. Aromix impregnates every particle and makes your attractant even more attractive to all types of fish.

Versatile flavours for different fish species

Aromix offers a wide range of flavours that are specially adapted to different fish species:

- **Bream:** Sweet, slightly spicy flavour, ideal for bream.
- **Carp:** Fruity-sweet mixture for carp and other large peaceful fish.
- **Brasem:** Popular Brasem flavouring in liquid form.
- **Big roach:** Sweet flavouring especially for large roach.
- **Roach:** Sweet flavour with lots of vanilla, perfect for roach.
- **Gingerbread:** A classic flavour known for its attraction to large fish, especially on the ground.
- **Earthworm:** Very strong earthworm flavour, ideal for feeder and bream anglers.
- **Sugar midge larvae:** Unique sugar midge larvae flavour that wets every particle in the feed. Recommended: 1/4 bottle for 3kg of food.
- **Plum:** Plum flavour that attracts large fish and carp. Dissolve Aromix in water to mix your attractant feed.

Composition:

The Aromix consists of sugar, water, flavouring and colouring. This composition ensures that your bait is even more appealing to the fish.

Use the Sensas Additive Aromix liquid flavouring 500ml to improve your catching results and attract the fish directly to your feeding area. Try out the different flavours and find the perfect mix for your fishing success!
