from 7,19 €* 7,19 €

With this Paravan trolling lead and its quick-change mechanism, the experienced angler is able to rapidly adjust to the changes and conditions while trolling. This makes it possible to troll in nearly any depth of water by adjusting the leader position on the line. This is how you do it: Remove the splint, place the line in the slit, adjust the depth level, finally slide the splint securely back into the slit.
