

Fox adjustable Tackle Box

Fox

Product number: FX-CKT

Pots matching the Cookware infrared stove.

from 27,99 €* 27,99 €

These pans channel the heat provided via the Fox Infrared Stove to provide a more energy efficient way of boiling water/cooking food and will in the long term save you time and money with reduced boiling times and energy costs.

- Hard anodised aluminium pan for boiling water/cooking food
- Features a heat exchanger system that sits directly onto the Fox Infrared stove for maximum efficiency
- Fox Camo neoprene sleeve which can be left on whilst in use which improves insulation
- Fold over handle which also secures the lid in position for transit
- Available in 0.65l and 1.25l capacity
- In the 1.25l version the infrared stove can be stored inside the pot together with a 230g gas cannister or alternatively a large 500g cannister can be stored for compact storage
- In the 0.65l version the infrared stove can be stored inside the pot or alternatively a 230g cannister can be stored for compact storage
