Okuma Custom Black spinning reel - perfection for carp and pike anglers

Experience the outstanding performance and durability of the **Okuma Custom Black spinning reel**. Whether you're fishing for big carp or hard-fighting pike, this **Okuma spinning reel** offers you the perfect combination of functionality and style. The classy, matt black design is not only an eye-catcher, but also a statement of quality.

Superior technology and materials

The **Okuma Custom Black fishing reel** is equipped with Even Flow Roller II technology, which ensures exceptional line lay. The Worm Shaft Transmission System reduces friction on the line, making casting smooth and precise. The fast, progressive drag system allows you to switch from locked to free-flowing with just a few clicks, so you're always in control.

Robustness and durability

For long-lasting durability, the **Okuma Custom Black spinning reel** is equipped with a machine-cut, anodised aluminium spool and a hydro-block seal that protects the reel from corrosion. The weighted wooden handle knob always remains perfectly aligned and in a vertical position. This **Okuma fishing reel** is available in 6000 and 8000 sizes, so you can choose the right size for your needs.

Additional features and benefits

- 3+1 stainless steel bearings for smooth operation

- Quickly adjustable anti-reverse ball bearing
- Aluminium crank for increased stability
- Hydroblock system protects against water and dirt
- Even take-up roller for perfect line lay
- Very precise transmission system via the oscillation axis
- LCS spool (Line Control Spool) for more distance and better line control
- Metal wire clip and spare graphite spool included

With the **Okuma Custom Black spinning reel** you are well equipped for your next fishing trip. This reel combines advanced technology with robust materials to give you an unrivalled fishing experience. Rediscover the world of fishing with the **Okuma Custom Black** - the perfect companion for ambitious anglers.
