

Bullseye Beast Boat Fishing Rod

bullseye

Bullseye

Product number: BE-BB

The Beast Boat 240 is the perfect rod for Pig Shad Jr. and co!

309,00 €* 309,00 €

After the huge success of the Bullseye Beast 275, the demand for a shorter version became louder and louder! The extremely dynamic blank allows full control during lively pike drills through the weed or branches! The Beast Boat in 240cm picks up exactly where we left off! An incredibly light but extremely dynamic rod for medium pike fishing and at the same time a strong zander rod for fishing from the boat! The Beast Boat Cast is of course just as suitable for fishing from the shore or the boat! The blank is extremely fast in its reset, very precise and clear in its transmission and changes under load into semi-parabolic. Due to this progressive action of the rod, you can record significantly less drill dropouts! An absolute working tool with which pike fishing is simply unbelievable fun!

Our aim was to develop a fishing rod for pike lures in the medium weight class. Many artificial lures that are used very successfully to fish for pike are exactly in this range. Designed for boat fishing, this rod can also be fished comfortably from the shore with its length of 240cm.

The perfect rod for Pig Shad Jr. and co! After the huge success of the Bullseye Beast 275, the demand for a shorter version became louder and louder. The extremely dynamic blank allows full control during lively pike drills through the weed or branches! The Beast Boat in 240cm picks up exactly where we left off! An incredibly light but extremely dynamic rod for medium pike fishing and at the same time a strong zander rod for fishing from the boat!

- Length: 2.40 metres
