Bullseye

Product number: BE-HMS

The HANGMAN 230 10-50g is the only rod on the market that has been specifically designed and developed as a "dead rod"!

Weight: 0.162 kg
199,00 €* 199,00 €

The Hangman 230 10-50g is the perfect "dead rod" and helps you catch 25% more fish in practice! It is the perfect addition for all boat, kayak and belly boat anglers. Perfect for light trolling of lures that make extreme pressure underwater. When fishing actively, the Hangman 230 10-50g can always be used as a second 'dead rod' and is guaranteed to bring in a bonus fish or two that you wouldn't have caught otherwise. The rod was developed especially for this fishing method. It combines a very sensitive tip and a strong backbone paired with a spiral ring and the highest quality components. The full throttle tip allows the fish to easily suck in the lure and ensures a seductive lure play underwater even in moderate swells. The neon red finish shows you every twitch perfectly, even in the dark you can see what's happening at the tip thanks to the self-luminous ring windings! Directly after the full-glass tip comes the strong backbone of this baitcast rod, so that even with a rod length of 2.30 m you can clearly acknowledge and utilise the bite and safely set the hook. The Hangman easily copes with local predators such as pike, zander and perch. It has also proven itself in the Baltic Sea for cod, pollack and flatfish. Thanks to the Fuji ACS reel seat, you always have a firm grip on everything and remain in control of the action. Fuji's K spiral ring reliably prevents the line from wrapping around the tip ring, even if you don't have any tension in the line during a drop shot.

- Length: 230cm
- Casting Weight: 10-50g
- Guides: 9+1 Fuji SS Alconite K-Guides
- Reel Holder: Fuji ACS Reel Seat with high quality EVA
- Weight: 162g
- Solid tip and strong spine with spiral ringing
- High-quality, continuous EVA handle
- Perfect bite indication
- Very high bite yield, thanks to the special bending curve
- Best quality

- Functional design
