Bullseye

Product number: BE-RGJJ-S

The Run&Gun Jiggy Jonga has been specially designed for fishing for perch, trout, chub and co.

from 249,00 €* 249,00 €

Bullseye Run & Gun Jiggy Jonga Spinning Rod: The epitome of precision and performance

The **Bullseye Run & Gun Jiggy Jonga spinning rod** is the product of a close collaboration between Bullseye and experienced angler Herbert Ziereis, developed over two years. With a specially developed rod concept bearing the signature and name of Herbert Ziereis, this rod is in a class of its own.

Blank: The heart of the rod

The **blank** is the heart of every Bullseye Run & Gun Jiggy Jonga spinning rod. After a lot of tinkering, the perfect blank was constructed, which convinces both in its action and design. The unpolished **40T Toray Carbon blank** gives the rod its unique action and attractive appearance.

The **X-Fast action** provides a pronounced tip action that seamlessly transitions into a powerful backbone, even under full load the rod retains its dynamism. This is especially important to keep the upper hand even in the hot phase of the drill of a capital fish and to land the fish safely.

Tip: For perfect bite detection

The **tip of the rod** is equipped with a **neon green lacquered full carbon or full glass solid tip**, which makes every bite visually perfect. The bite detection is phenomenal and the strike is almost reflexive after the crystal clear transmission of the bite.

Handle, reel seat and rings: quality down to the last detail

The **high quality EVA handle** ensures a secure grip for casting, lure handling, retrieve and fight. The **Fuji VSS 16 reel seat** sits ergonomically in the hand, providing a perfect grip and fatigue-free fishing. Exclusive **Fuji components** are used for the rings to achieve maximum casting distance, aiming accuracy and perfect power distribution to the blank.

Technical data:

- Length: 235cm and 300cm versions
- Casting weight: 3-12g (235cm version) or 4-16g (300cm version)
- Guide rings: Fuji K SS Alconite, 8+1 (235cm version) resp. 10+1 (300cm version)
