The Camera Mount Adaptor from RAILBLAZA is the safe and secure option for holding your camera or GoPro on any kayak, canoe, bass boat, yacht and more.

The RAILBLAZA Camera Mount Adaptor is an instantly portable, easy way to mount your device safely and securely anywhere you choose on your kayak, canoe, bass boat, or yacht. If you want to change your shot angle from bow to stern, vertical to horizontal, or simply to detach your camera for some hand held close ups, this is the fast and easy way move and reattach your device without hassle. Simply attach your device, and this camera mount will clip into any RAILBLAZA StarPort, SidePort, RIBPort or RailMount. The RAILBLAZA Camera Mount Adaptor uses the universally compatible $\text{Ø} 20$ thread screw which will easily attach your action camera or any device. This RAILBLAZA camera mount accessory also comes with a GoPro style tripod adapter, allowing you to mount your GoPro products or other well known digital camera brands to your kayak or boat with no troubles.

Due to the versatile nature of all RAILBLAZA accessories, the Camera Mount Adaptor is easily moved, adjusted, transported, removed or stowed in seconds according to your needs. If you need to quickly run into a store for a last minute bait or tackle emergency, it's a quick and easy action, unclip any RAILBLAZA accessory to keep it - and your attached device - safe in the boot of your car.
