Visibility Kit II

Be safe be seen

The RAILBLAZA Visibility Kit II is a must-have safety item in the kit of any kayak angler, or recreational paddler. In one convenient, value-for-money pack you get everything you need for your kayak or canoe to be seen on the water day and night.

Simply mount the StarPort HD with the supplied fastenings, lock in the 1 metre (3') Extenda Pole 1000, clip on the orange flouro flag for daytime visibility, and lock the Illuminate i360 – All-round White Navigation Light into the port on top for safety and regulatory compliance at night.

Disassembly -when you're finished- is quick and easy, and it will store just about anywhere.

The i360 light can also be fitted to other RAILBLAZA ports around the kayak, and the Extenda Pole 1000 can be used to display a dive or national flag, or combined with RAILBLAZA camera mounts as a camera pole.

Designed and made in New Zealand using high quality materials, and the latest LED technology.

- 3 operation modes:
 - Full brightness navigation mode 2NM – up to 25hrs battery life
 - Low brightness work mode – up to 160 hrs battery life
 - Flashing emergency Mode – over 200hrs battery life
