The 35mm Baby Crank emits strong vibrations even at slow retrieving

9,59 €* 9,59 €

One of the smallest within the program - the 35mm Baby Crank emits strong vibrations even at slow retrieving and moves very wobbly through the water. The thin diving lip is made of robust plastic and helps gaining depth quickly. Especially perch go crazy when this lure is fished variously and provokes intense bites. This floating lure is very well suited to be presented under overhanging bushes in order to catch trouts.
