

Dep's New Silent Killer 115 lure Swimbait

Dep's

Product number: DS-NSK-115

Extremely realistic artificial lure for hunting especially black bass.

41,99 €* 41,99 €

The "Silent Killer" has an excellent and realistic shape that matches the size of a baitfish in any field, brings fish eaters lurking in cover to bite without being uncomfortable. This jointed lure has a size of 115 mm. The body is encased in a soft shell and has a hollow core of ABS resin that gives the lure a high, crisp cranking action with high buoyancy so you can attack cover like a shallow crank. The lure can also be used for dead-sticking, surface trolling and scouting up dying baitfish to get them to bite.

- Length: 115mm
- Weight: 20g
- Swimming behaviour: floating
