Illex Bonnie 85 Lure Silent Stickbait - Perfection for the discerning angler

The Illex Bonnie 85 Lure Silent Stickbait is the smallest and most sophisticated representative of the legendary Bonnie series. Specially developed to imitate small prey fish, this finesse lure is the ideal choice for experienced anglers who want to outwit even the most cautious fish.

The 'Silent' version of the Bonnie 85 is particularly effective in calm waters and clear water where conventional, rattling lures might fail. Fish that are deterred by loud noises are not put off by this quiet stickbait. The Bonnie 85 Silent can make all the difference, especially in heavily fished waters. Its aerodynamic shape and the tungsten ball integrated in the rear section enable precise and long casts that make fishing for black bass over weedbeds and other difficult areas easier.

With a length of 8.5 cm and a weight of 9.1 g, the Illex Bonnie 85 Silent Stickbait is an indispensable surface bait in every tackle box. Whether zander, perch, pike, black bass, sea bass, rainbow trout, salmon or asp - this hardbait is versatile and reliable.

Features:

- **Length:** 8,5 cm
- **Weight:** 9,1 g
- **Swimming behaviour:** Floating
- **Swimming depth:** Surface
