The Grinch is a hybrid surface bait, a mix of frog and fish. The soft front part is frog, the tail with paddletail fish. When cranking the tail like wild paddles and whirls up the water intensely. The front part has a double hook, which is covered by the body so far that it does not hang in the thickest herb. Linear caught, with breaks like a real frog, or Zig Zag led - the Grinch is an absolute bringer on perch and pike. Thze Grinch comes completely mounted with hook.
