Discover the Illex Soul Flat 58 SF Crankbait: A masterpiece of lure artistry

The Illex Soul Flat 58 SF Crankbait is more than just a lure - it's an innovative hardbait that will take the way you fish to a new level. With its flat side shape and robust body, this Illex lure responds to every movement of your rod. Whether you're twitching, jigging or using a stop-and-go technique, this crankbait will push an immense amount of water without putting undue strain on the rod.

The lip of this Illex artificial lure is of outstanding quality and gives it stability and precision. Even when retrieved quickly, the Illex Soul Flat 58 SF maintains its line and produces irregular movements that imitate the perfect panic action of a prey fish. Even at slower retrieves, this Illex crankbait retains its momentum and creates a natural, tantalising movement that even the shyest fish can't resist.

The ingenious weight shifting system of this perch lure, which is held in place by a magnet, allows for precise and long distance casts so you can reach those hard to reach spots with ease. The Illex Soul Flat 58 SF is a must for any modern angler looking for perch, pikeperch, asp, chub and trout in lakes and rivers.
