Illex Twitch Flesh Longbill Minnow - The ultimate perch wobbler for your fishing success

This versatile Illex plug is specially designed to attract a wide range of predatory fish, including perch, pike, zander, asp, chub, trout and black bass, in all types of waters - from canals and lakes to large rivers.

With its uniquely shaped lip angle, this minnow plug can dive quickly to depths of up to 1.2 metres (6.1 DR) for the 6.1 cm version and 2.0 metres (67 D2R) for the 6.7 cm version. Even in difficult conditions such as clear or cold water, the Illex Twitch Flesh Longbill Minnow retains its catching power and is ideal for fishing near submerged trees, weed beds, along quays or on beaches.

Thanks to its weight shifting system, this twitchbait is easy to cast and handle and combines all the classic features of a longbill minnow. It is perfect for techniques such as stop-and-go, twitching, jerking and even bottom tapping.

The Twitch Flesh is the perfect imitation of a small prey fish and remains suspended in the water column during the spin stop to be easily sucked in by a subsequent predator.

Product features:

- Suitable for freshwater
- Target fish: Perch, zander, asp, chub, trout, black bass
- Available in two sizes: 6.1 cm (4.9 g) and 6.7 cm (6.5 g)
- Swimming depth: 6.1 cm - 1.0 to 1.2 m / 6.7 cm - 1.8 to 2.0 m
- Swimming behaviour: Floating

Maximise your chances of catching fish with the Illex Twitch Flesh Longbill Minnow and experience innovation in the world of fishing. Get your own barfishing lure today and increase your fishing success!
