The tiny fry was designed to give of strong vibrations similar to a crankbait. What makes Tiny Fry so attractive is its amazing wriggling action. Easy to use twitching or jerking, it imitates perfectly a panic-stricken fry. The sides of the lure will flash on the slightest rod movement without the lure jerking off course. Its unique body shape makes the Tiny Fry an excellent bait for holding steady in a flow.

RT Farben:

The Tiny Fry is a small hardbait of the minnow type, but similar to a crankbait, it emits strong vibrations. Its great appeal is due in no small part to its powerful wobbling. It is very easy to handle, can be twitched and jerked and imitates a fish in panic without swimming away too fast. Its perfect shape and small scoop help it to run stably even in strong currents. For its size, it can be cast amazingly far on suitably fine line! Perfect for trout, perch, chub and asp. Now even more attractive in 'REAL TYPE' decors!
