Weight: 0.028 kg  
29,99 €\* 29,99 €

The Pointer - B'Freeze 128 SP is a jerkbait with a revolutionary design. When animated with short strokes with the rod tip, you can admire its wild movements that perfectly simulate an injured or dying fish. Thanks to its low center of gravity, the Pointer - B'Freeze vibrates and oscillates even when you stop the retrieve and the bait stands still. Among the many patterns and colors of the Pointer - B'Freeze, you will easily find the plug that perfectly imitates the species of forage fish in your waters. A concentrated load of action and imitation that makes the Pointer - B'Freeze a classic among artificial lures.
