

Zalt 17 jerkbait lure 52 sinking 59g

Zalt

Product number: Z17S52-2

100% killer lure from Sweden

18,49 €* 18,49 €

ZALT 17: The genuine wobbler from Sweden. These wobblers have a great reputation in Scandinavian countries and are constantly featured in hit lists and charts of major catches. Everyone who is familiar with these wobblers definitely understands why this is the case: casting or trolling - the Swedes find the fish! Therefore fishermen who fish from a boat or from the shore will enjoy the process equally. The ZALT's original and compact form allows throwing the wobbler at an extraordinary long distance from the shore or from a boat. You can achieve the best chances for a catch if the bait is not being reeled in monotonously, but instead, pulled with short bursts of movement to imitate the movements of a real fish.

A nice gift for a fish. Why not offer the pike something new and of good design? Easy to use as well. The small company with the big pike, Zalt from Sweden, introduce Zalt 17 cm, easy to crank, jerk or troll. With VMC hooks and a wire through. You never know what kind of strong emotions you may stir up down there.
