Hearty Rise

Product number: HR-SIT3-12-WTL

Strong flanking micro jig - perfect for perch.

Weight: 0.012 kg
3,90 €* 3,90 €

Continuing the superior performance of the Sitenkiba series, Hearty Rise designed this Sitenkiba III which anglers can accurately drop to the designated location in the deep waters. It is also a strong attraction for benthic fish. Combining the 1st and 2nd generation HR adjusted it to a narrower shape, which can reduce resistance when the line is closed, so it is more stable and not drifting when it slides down. It is an excellent weapon to challenge deep waters. Ideal for light rockfishing and perch.
