Are you looking for something special, a kind of breakthrough in the shad market? You have found it, the name is Spikey! Everywhere Spikey was shown it caused quite a stir. With its 264 spikes it produces micro vibrations, which are extremely attractive for all predators. These spikes are very flexible for a natural life-like feeling and give the fishermen the opportunity to add long lasting bait pastes onto the lure.

It is injection moulded, with a super soft rubber mixture giving the perfect lure shape and a very attractive movement, even with the slowest retrieving rate. A real hit for zander, perch and black bass when fishing with a jig head or all modern US-rig types.

- 3 different sizes
- 5 catchy UV colors - UV Lemon Tiger, UV Dark Oil, UV Pearl, UV Pink Candy, UV Perch
