Discover the Zeck UBS Baby Rippler soft lure 12cm

The Zeck UBS Baby Rippler soft lure 12cm is the result of Uli Beyer's creative vision. This unique rubber bait combines an impressive silhouette with light weight and outstanding running characteristics. Every single rib has been shaped with great care, which is a technical masterpiece. As the smallest member of its family, the Baby Rippler has already caused a sensation during the test phase.

Adjustable 2-speed running behavior

The first rubber bait of its kind allows you to choose between two running behaviors. With a tail tip, it offers a slow-motion action for large predators, while it runs more agile and powerful without a tail tip. This feature allows the lure to adapt to different conditions and seasons.

Inclined ribs in wave shape with scales

The unique shape of the ribs improves the aerodynamics of the bait and gives it a natural look. As a result, the Baby Rippler creates attractive water turbulence and a large silhouette with a low dead weight.

The **Zeck UBS Baby Rippler soft bait** is the perfect soft bait for anglers fishing for perch, zander and pike. With a weight of 11 grams and a length of 12 cm, it offers the ideal size for your next fishing adventure. 3 soft lures are supplied per pack. Discover a new dimension in lure fishing and maximize your chances of the next big catch!
