Zeck Fishing

Product number: ZK-320066

This Creature Bait resembles a dragonfly larva.

Weight: 0.0035 kg

7,95 €\* 7,95 €

Discover a world of fishing bliss with the **Zeck Barsch Alarm Shaky Sneaker rubber bait**. Inspired by nature, this sophisticated creature bait masterfully mimics a dragonfly larva to irresistibly attract perch. With versatility, the Shaky Sneaker can be used in a variety of finesse rigs as well as jigging, skirted jigging or soft jerking. With every strike it reliably attracts the attention of your prey.

The Shaky Sneaker is more than just an ordinary rubber bait. The finely tuned feelers, legs and appendages on the tail generate micro-vibrations with the slightest water turbulence, making your lure particularly attractive to perch. The unique Belly Down shape ensures a stable water position and prevents it from tipping over onto its back.

The environmentally conscious design lets you fish with a clear conscience. Made without toxic softeners, the Shaky Sneaker is free from BPA and phthalate. The enticing Fried Squid Scent further entices perch, while a 20% salt content in the lower half of the body promotes realistic rubber bait behaviour in the water.

Other notable features include horizontal sinking without flipping over, a Shaky Tail and Offset Slot and Offset Hem on top. These features maximise catching performance and ensure you stay one step ahead with the Zeck Perch Alarm Shaky Sneaker rubber bait.
