

Gunki Drift Spoon 2,91cm Blue Pink Silver 2,5g

Our Spoon REINBO DRIFT is another lure from our 'TROUT AREA by GUNKI' range. The tapered and bent spoon already works wonderfully when retrieved linearly. Thanks to its special shape it flutters and flashes even when sinking and produces the first bites even in this phase! Thanks to its aerodynamic shape it is also easy to cast. A wide range of colours allows it to be adapted to the conditions on the water. With single barbless hooks.
