Excellence in perch fishing: The Bullseye Cherry Picker

The **Bullseye Cherry Picker fishing rod** represents a fine balance between precision and performance. Featuring an ultra-slim Lotus-Woven Composite -40 Ton Blank, Fuji Titanium SIC K-Guides and a Fuji TVS or Fuji ECSM Reel Seat, it offers clear transmission and tremendous spring power that allows you to fish with precision even in difficult conditions.

Special features:

- **Targeted design:** optimised for rig fishing for perch, with a slightly recessed tip pivot point for improved lure control.
- **Application flexibility:** Versatile for use from shore, boat, kayak, belly boat to street fishing.
- **High performance blank:** Made from Japanese Toray Carbon using the LWC (Lotus-Woven-Composite) concept, for clear transmission and high spring power
- **Quality components:** Equipped with Fuji Titanium SIC K-Guides and a Fuji TVS or Fuji ECSM reel seat.
- **Lightweight and balanced:** Weighing only 102g, it offers a perfect balance for excellent handling and control

The **Cherry Picker** series is ideal for rig fishing for perch and its special design allows for optimum lure control. The versatile applications range from shore and boat fishing to street fishing. Whether fishing with rigs, medium hardbaits or jigs, this rod meets the requirements of anglers who value precise and effective fishing.

The **Bullseye Cherry Picker fishing rod** includes two remarkable variants: the **Cherry Picker Spin 198 3-21g** for stationary fishing and the **Cherry Picker Cast 198 3-21g** for casting anglers. Both variants are exquisitely designed for rig fishing for bass and are an excellent choice for anglers who prefer both **bullseye spinning rods**

and **bullseye baitcasting rods**. With their unrivalled ability to effectively fish both small and medium hardbaits, the **Bullseye perch rods** make the Cherry Picker range an essential addition to any discerning fishing kit.
