TN 60 Lippliss Crank Vibrating Lure - Perfect performance for the ultimate catch

Experience the pinnacle of fishing innovation with the TN 60 Lippliss Crank Vibrating Lure from Illex. This innovative generation of lures combines the proven features of the **TN series** with improved features that take the fishing experience to a new level.

Features:

- **TUNGSTEN-lip:** The outer TUNGSTEN lip ensures optimum stability and an ultra-stable run at any speed. Thanks to the high weight and hardness of Tungsten, water bottom structures can be read effortlessly.
- **Outstanding casting properties:** The TN 60 offers great casting characteristics that allow you to precisely aim at even distant targets.
- **Minimised risk of snagging:** Thanks to the heavy head section, the TN 60 remains stable even in snaggy situations. The treble hooks are always well covered, which minimises the risk of tangles.
- **Attractive, deep sound:** The TN 60 emits a seductive, deep sound that attracts even the shyest predatory fish.
- **Versatile:** A top lure for a variety of predatory fish, including perch, zander, asp, pike and bass, in both rivers and lakes.

Technical data:

The TN 60 Lippless Crank vibrating lure is ideal for perch, pike, zander, salmon and black bass. It has a length of 6 cm and a weight of 12.7g. Its swimming behaviour is sinking and it dives to a depth of 2.0 m or more.

Don't miss the opportunity to maximise your chances of catching fish with the TN 60 Lippless Crank Vibrating Lure from Illex. Get your own TN 60 today and get ready for unforgettable fishing adventures!
