23,39 €\* 23,39 €

## Experience unique action on the water with the Illex Water Moccasin 75

The Illex Water Moccasin 75 is a compact representative of the Illex stickbaits. Its low weight of 9.4g enables precise and long casts, even under adverse conditions and on moving surfaces. Thanks to its reinforcing ribs on the inside, this hardbait has a robust design and retains its shape even with intensive use. The Vari-eyelet supports three different running styles to give you maximum flexibility when fishing.

The Water Moccasin surface lure fulfils two main criteria: flawless casts and unique sound quality thanks to the embedded tungsten beads. This stickbait proves to be an unbeatable catch guarantee for perch, asp and other predatory fish.

### Product features:
