Illex Seabass Anchovy Metal Jig - High-quality metal lure for successful fishing

The **Illex Seabass Anchovy Metal Jig** is an extremely versatile metal lure that can be used in various waters and for a wide range of predatory fish. Its classic shape and compact body make it an all-round talent for various fishing techniques.

Whether inshore, offshore or over wrecks, this **Jig** is a reliable companion when fishing for **perch**, **coalfish** and other sea predators such as **Bonito**, **tuna** oder **sea bream**. Its flexible and highly reflective body reacts to the slightest movement and attracts the fish with tempting movements.

The realistic design with a large target eye and detailed gills gives the metal lure a particularly appealing look that will entice even the pickiest fish to bite. Equipped with a double assist hook on the tail, this **Jig** significantly increases the chances of catching fish.

Features:

- Suitable for fresh and salt water
- Target fish: Perch, saithe, bonito, tuna
- Available sizes: 60g (8.8cm), 80g (9.8cm) and 100g (10.5cm)
- Swimming behaviour: Sinking

With the **Illex Seabass Anchovy Metal Jig** you get a high-quality metal lure that will lead you to new fishing successes. Don't miss the opportunity to refine your fishing techniques and achieve impressive results with this first-class **Jig**.
