The Lucky Luck Cast has been specially developed for fishing for perch, chub, trout and co. This rod does the balancing act between jig rod and soft tip perfectly in order to have as few dropouts as possible in the fight. The blank is made of 40T NANOMETER carbon and has a very fast recoil but absorbs head shots and escapes in the fight perfectly! Due to its action, the Lucky Luck can be used very versatile, whether from the shore, boat, kayak, belly or just for street fishing. In addition to jigs, light hardbaits, spinjigs, spinnerbaits, chatter baits, etc. can also be fished with extreme precision and the Lucky Luck also carries zander and pike! The Lucky Luck has been developed for perch fishing and turns out to be a true all-rounder! Whether on the shore in the lake, stream or river, with belly boat, kayak, boat and street fishing.
