Product number: OWN-GLVS

Summer gloves without palm area for a perfect rod feeling.

Owner Sensitive Gloves are your next fishing gloves for summer! You protect your hands from the wind and sun, and thanks to the exposed palm, you still won't lose the direct contact to the blank. Even the fingers remain free, so that you can handle freely.

The soft, slightly stretchy neoprene clings tightly to the hands, so that the gloves are comfortable even when worn for a long time.
