- For Baitcasting rod variants: Fuji ECSM Reel Seat with high quality EVA
- Uniquely lightweight with a weight range from 100g to 109g
- Functional and elegant design
- Perfect bait control and excellent transmission
- Razor sharp sensitivity for electrifying bites
- Versatile use from shore, boat, kayak, belly to street fishing

Advantages of the Bullseye Surgeon fishing rod

The Bullseye Surgeon fishing rod covers a wide range of fishing conditions. With its super slim blank and cross wrapping technology, it offers a robust yet flexible structure for optimal performance. Fuji components, including the 7+1 K-Guides and TVS Reel Seat, ensure smooth operation and maximum

durability.

The **Bullseye Surgeon's** unique design allows anglers to fish in tight situations such as street fishing or from a kayak or belly boat. The rod's excellent transmission and razor-sharp sensitivity provide immediate feedback, so you can feel every bite and control your lures perfectly.

Protect your investment with the included case that doubles as a rod sleeve for the mounted rod. The Bullseye Surgeon fishing rod is not only a functional, but also an aesthetically pleasing fishing tool that will take your fishing adventures to a new level.
