

Hearty Rise Black Arrow Spinning Rod

Hearty Rise

Product number: HR-BA-S

High quality spinning rod for fishing for predatory fish.

305,00 €* 305,00 €

The Black Arrow rod series is ideally suited for light spinning fishing for perch, asp and trout as well as for active predator fishing with lighter artificial lures. The series consists of various models that are suitable for shore and boat fishing and allow soft and hardbaits to be presented seductively. The optimised NET-VIII carbon blank offers increased sensitivity and sufficient power to conquer even bigger fish. Thanks to the use of the high-quality Fuji Alconite ring set, your fishing line glides almost smoothly through the rod rings and enables phenomenal casting distances. The rod series has an elegant, simple design.
