Hybrid of fish and frog.

from 19,90 €\* 19,90 €

## Illex Grinch Swimbait - Perfect surface bait for pike and perch

The **Illex Grinch Swimbait** is the ideal surface softbait for anglers targeting pike and perch. This unique hybrid lure combines the features of a frog and a fish in an innovative design. With a length of 13.5 cm and a weight of 20 g, the Grinch offers an impressive performance that magically attracts predatory fish.

### Features of the Illex Grinch lure

The Illex Grinch impresses with its hybrid design, which combines the advantages of frog and fish. The soft front section is equipped with a concealed double hook that prevents snags in the weed. The dynamic paddletail creates lively movements and eddies that attract predatory fish. The lure is also versatile - it can be reeled in linearly, guided with pauses or presented in a zig-zag style.

This surface lure from Illex is not only easy to handle, but also extremely effective. The Grinch simulates the realistic movements of a frog, which makes it particularly attractive for predatory fish such as perch and pike. Whether in dense weed beds or open waters - the Grinch delivers consistently convincing results.

Fully assembled and ready to use, the Illex Grinch lure brings the action straight to the surface, where the most exciting battles await. Order now and experience success with the Illex Grinch Swimbait!
