VMC eel hook 9290 red leader hook - For the perfect catch

If you are looking for a reliable leader hook for targeted eel fishing, then the VMC eel hook 9290 is just the thing for you. These high-quality hooks are specially designed to hold the bait securely and firmly in place so that you can concentrate fully on the catch. Thanks to the two barbs on the shank, the bait is reliably held in place and slipping is effectively prevented.

Features:

- **High load-bearing capacity:** the hook is tied to an extremely robust, monofilament nylon line, which is known for its high load-bearing capacity.
- **Variable line diameter:** Depending on the hook size, the line diameter varies to meet different angling requirements:
 - #10 - 0,22mm
 - #8 - 0,25mm
 - #6 - 0,30mm
 - #4 - 0,35mm
 - #2 - 0,40mm
 - #1 - 0,40mm
- **Red hook colour:** The eye-catching red colour of the hook is ideal for effectively attracting predatory fish such as eels.
- **Length:** With a length of 60cm, the hook offers the optimum length for flexible and precise handling.
- **Packaging unit:** Each pack contains 10 pieces of the VMC eel hook 9290.

This hook is not only robust and reliable, but also user-friendly. Anglers appreciate the quality and precision that VMC delivers with this product. Perfect for those who prioritise quality and efficiency on every fishing trip.
